

Differentiation Content

“On Target” Strategies

1. Preassessing students.
2. Compacting content.
3. Designing contracts.
4. Using research and independent study.
5. Allowing students to self assess.
6. Tiering instruction.
7. Providing authentic resources.
8. Designing task boards.
9. Accelerating students.
10. Promoting “fair” processes for ALL students.
11. Documenting the process.

Who Said This???

Directions: Match the quote with who said it by placing the letter of the group next to the number of the quote.

1. ____ Students today depend on paper too much. They don't know how to write on a slate without getting chalk dust all over themselves. They can't clean a slate properly. What will they do when they run out of paper?
2. ____ You can't use those calculators on the test. If I let you do that, you wouldn't ever learn how to use the tables in the back of the book and use interpolation to figure out your trig ratios.
3. ____ We can't let them use calculators in middle school. If we do, they'll forget how to do long division or how to multiply three digit numbers by three digit numbers. What will they do when they don't have access to a calculator?
4. ____ Why would you ever want the Internet for student use? It's just the latest fad – have them use the library.
5. ____ Why do you want network drops at every teacher's desk? You're not thinking of getting a computer for *all* of them are you?
6. ____ Students today depend on these expensive fountain pens. They can no longer write with a straight pen and nib. We parents must not allow them to wallow in such luxury to the detriment of learning how to cope in the real business world which is not so extravagant.
7. ____ Why are we talking about students having laptops in high school? I don't think most parents will even give their kids their old computer, much less buy them a new one.
8. ____ I don't think we'll have wireless networks in schools anytime soon.
9. ____ Students today depend too much upon ink. They don't know how to use a pen knife to sharpen a pencil. Pen and ink will never replace the pencil.
10. ____ Turn off and put away all Cell Phones, iPods, and Electronic Devices during class!

- A. Principal's Association
- B. PTA Gazette
- C. High School Math Teacher
- D. District Employee
- E. National Association of Teachers
- F. Director of Technology
- G. Member of Laptop Committee
- H. Building Administrator
- I. Student Handbook
- J. Middle School Math Teacher
